

Introduction

Europort is without a doubt the most complete maritime exhibition in the world. Over 30,000 maritime professionals from all segments of the shipbuilding industry are brought together in one state-of-art exhibition. For detailed information on Europort 2011: www.europort.nl

MariMatch is an international brokerage forum for all companies of the shipbuilding industry that are looking for business or research partners. The brokerage event is a unique opportunity for you to establish new cross-border contacts for future collaboration and to find new partners.

The Enterprise Europe Network Service: Targeted support for SME's

With close to 600 contact points in more than 45 countries, the network is the largest in Europe providing expertise and services for business:

- Organising business cooperation
- Providing a platform for cross-border cooperation
- Accessing EU projects and funding
- Promoting innovation
- Going international

Find more about the network:

www.enterprise-europe-network.ec.europa.eu

Who should attend ?

The event is targeted at companies and research institutes looking to cooperate in the following sectors:

- Inland navigation • Sea Shipping • Dredging • Offshore • Mega Yachts • Workboats • Construction Vessels • Fishery and Naval Specials •

Why you should participate

MariMatch is a very effective forum to meet potential business partners and to discuss cooperation possibilities in an informal atmosphere:

- Select meeting partners and confirm meetings via online catalogue prior to the event
- Added-value and efficient use of your trade fair participation
- Allocate and generate business
- Develop and strengthen business and research relationships

How it works

1. Register online at the **Marimatch website** (europort2011.b2b-match.com) and fill in your company and technology profiles
2. Browse the online catalogue and find interesting partners from all over the world
3. Request your individual meetings with potential co-operation partners from the online catalogue
